

Bulk Storage Operator (Technician)

This qualification provides recognition of the technical and supervisory knowledge, understanding and performance of those working at Technician level within a Bulk Storage Operations Environment.

Document detail:

Level 3 Diploma for a Bulk Storage Operator (Technician)

Who is the Qualification for:

This qualification is designed to confirm the current optimum level of knowledge, understanding and performance of competence for individuals involved in complex operations within the Bulk Storage Downstream sector at Technician Level. The qualification contains Mandatory Units covering starting up, operating and shutting down plant and equipment; managing quality and meeting all requirements and obligations; working safely and responding to emergencies. Learners may also take additional units covering jetty operations and mooring.

For the Diploma: 24 Mandatory Units are required. Additional Units may be taken but are not required for the qualification.

Mandatory Units

BSOT 01c	Start-Up Plant and Equipment within a Bulk Storage Operations Environment
BSOT 01k	How to Start-Up Plant and Equipment within a Bulk Storage Operations Environment
BSOT 02c	Operate Plant and Equipment within a Bulk Storage Operations Environment
BSOT 02k	How to Operate Plant and Equipment within a Bulk Storage Operations Environment
BSOT 03c	Shut-down and Prepare Plant and Equipment within a Bulk Storage Operations Environment
BSOT 03k	How to Shut-down and Prepare Plant and Equipment within a Bulk Storage Operations Environment
BSOT 04c	Work Safely within a Bulk Storage Operations Environment
BSOT 04k	How to Work Safely within a Bulk Storage Operations Environment
BSOT 05c	Manage and Control Quality within a Bulk Storage Operations Environment
BSOT 05k	How to Manage and Control Quality within a Bulk Storage Operations Environment
BSOT 06c	Comply with External and Internal Obligations within a Bulk Storage Operations Environment
BSOT 06k	How to Comply with External and Internal Obligations within a Bulk Storage Operations Environment
BSOT 07c	Monitor, Check and Resolve Abnormal Conditions within a Bulk Storage Operations Environment
BSOT 07k	How to Monitor, Check and Resolve Abnormal Conditions within a Bulk Storage Operations Environment
BSOT 08c	Manage Product Transfer Information within a Bulk Storage Operations Environment
BSOT 08k	How to Manage Product Transfer Information within a Bulk Storage Operations Environment
BSOT 09c	Respond to Business and Role Requirements within a Bulk Storage Operations Environment
BSOT 09k	How to Respond to Business and Role Requirements within a Bulk Storage Operations Environment
BSOT 10c	Continuous Improvement and Control Effectiveness within a Bulk Storage Operations Environment
BSOT 10k	How to achieve Continuous Improvement and Control Effectiveness within a Bulk Storage Operations Environment
BSOT 11c	Personal Skills and Communication within a Bulk Storage Operations Environment
BSOT 11k	Understand Personal Skills and Communication within a Bulk Storage Operations Environment
BSOT 12c	Emergency Response within a Bulk Storage Operations Environment
BSOT 12k	Understand Emergency Response within a Bulk Storage Operations Environment

Additional Units

Additional Units may be taken but are not required for the qualification.

BSOT 13c	Jetty Operations and Mooring within a Bulk Storage Operations Environment
BSOT 13k	How to Carry Out Jetty Operations and Mooring within a Bulk Storage Operations Environment
